

# 2025

Cosmic Finances

Playbook

Step 01:

# Set your 2025 money goal.

Be specific with whatever it is (the amount of money you want to make, or save, or invest, or the exact purchase, etc.)

## Step 02:

# Create your affirmation.

Your affirmation is a reminder of what you're setting out to achieve in 2025 written from the perspective that you've already achieved it.

Say your 2025 goal is to make \$100 thousand dollars. Your affirmation could be, "I am so happy and grateful now that I make \$100 thousand dollars each year easily and doing what I love."

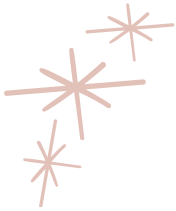

Say your 2025 goal is to buy a house. Your affirmation could be, "I am so happy and grateful now that I live in and own my dream home."

For debt, instead of saying you want to pay something off, use something like, "I am so happy and grateful I make more than I want every year" (covering the debt) or you can add on how much you want to pay off since this is what you'll need (so say you make 70 thousand a year and want to pay off 20 thousand, you can use something like, "I am so happy and grateful I made 90 thousand dollars in 2025.")

Feel free to come up with multiple and try them all out. They may change throughout the year as you make progress. Go with what feels right for you.

Step 02:

## Your affirmation(s):

I am so happy and grateful now that:

## Step 03:

# Make a plan.

Make a plan for what you want to achieve. You don't need to know right now, and can just focus on steps like doing research, gathering information, getting advice, paying more attention to opportunities, sharpening your intuition, doing more manifestation, etc.
