17 DEGREES 33 MINUTES
LIBRA [MERCURY], CANCER [MARS]

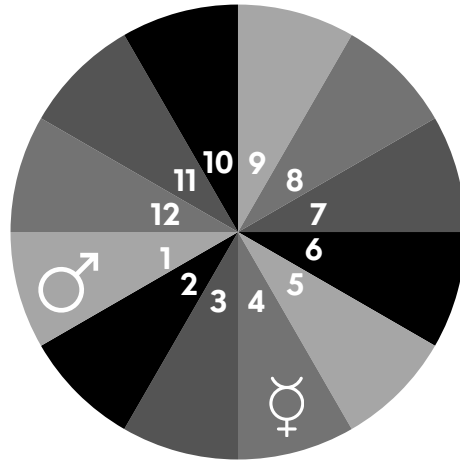

GENERAL: Challenging for communication. We're prone to fights, we don't want to listen, and we have a hard time focusing. We need to do a better job at listening, and focus on channeling extra mental energy productively.

FOR YOU: Mercury square Mars targets you specifically since Mars is in your sign and the first house, and Mercury is in the fourth house. Mars in your sign gives you lots of energy for what you want, while Mercury in the fourth house amplifies your emotions. You may be too subjective, have to deal with being more supportive of others, or are insecure about something. Try to avoid blowing up, and channel emotional energy into something productive. If you're a Cancer Sun, this can be strongest for you if you're born July 6th - 11th.

Anaretic. Extra passionate about our ideas + plans, and we can get into it over anything we're wrapped up in.
