

## Love Astrology Bootcamp Q&A 2

---

***Q: Uranus will be in my 7th house in my upcoming solar return, what does that mean?***

A: Ha, this was me last year! Similarly to Uranus transiting your 7th house, Uranus in the solar return 7th house can show you're going to endure a year with some erratic energy in your relationships. You may experience many changes, sudden developments, and unexpected events in your relationships or from the other people in your life, and their drama can become your drama. You'll need to be flexible and try to be open to new people. The upside of this being in the solar return chart is it only lasts for a year until your next birthday, so it won't be for too long (and hopefully not too bad!).
