SOLAR ECLIPSE

IN

CAPRICORN

December 25th
2019

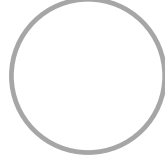

RITUAL:

This is a potent eclipse for goals. Write down your biggest goals, and envision them as if they have already happened. Come up with affirmations that go along with your goal, or simply say, I am successful in everything I set out to accomplish.

LUNAR ECLIPSE

IN

CANCER

January 10th
2020

RITUAL:

Take a clear cup or bowl and fill with water. Look into the water and talk about anything you want to release in your life (the water absorbs the energy). Then dump the water down the drain, flush it down the toilet, or dump it outside so it takes away the stress or problem.
