RITUAL:

This ritual is for protection. Wear black (protective color), and sprinkle sea salt in a circle. Sit in the middle and light a white candle (or hold a piece of clear quartz if you don't want to use a candle). Meditate for 10-20 minutes and envision negative energy being absorbed by the candle/quartz. When ready, blow out the candle and throw it and the salt away.

FULL MOON

RITUAL:

Taurus is the sign of abundance, so you can work on manifesting that. Write down ways you would like to have more abundance in your life. Focus on the affirmation: I live abundantly and always have more than I need. Put the paper under the Full Moon light to absorb its energy (on a windowsill, outside). Read it daily to yourself.
