RITUAL:

Since Virgo is a time to get things done, you'll need lots of energy! When you feel your energy start to wane, pause, close your eyes, and imagine energy everywhere. Put your hands on the ground and envision the energy flowing into your hands and feet to the rest of your body. Then go get more done!

PISCES

September 14th

RITUAL:

Fill a pitcher, bowl, glass, or jar with water and leave out overnight under the Full Moon (can be outside, on a windowsill, anywhere it'll see the Moon). The next day, use the water anywhere in your home or office that could use some magical help - or even drink it to infuse yourself with super magic!
