

Dreamy Aquarius

Pisces is often the sign associated with being dreamy, it's true, but Aquarius is the one who actually rules your hopes and dreams for the future. Aquarius is the one really looking forward with hope that everything will work out just the way you want it to.

During Aquarius Season, focus on those dreams. As we get older, we often don't allow ourselves to dream very much anymore, and tell ourselves that we have to be realistic and practical.

But that's for Capricorn Season - Aquarius is the unconventional and outside of the box, so don't box yourself in!

Let yourself dream like when you were younger, and don't tell yourself no right away. Let the dreams sit with you for a while. You may find that one or two of them may end up becoming possible!

POSITIVE PSYCHOLOGY FOR AQUARIUS SEASON

As you come up with dreams now, keep track of them! Write them down, and come back to them later (like when Mercury is retrograde). What may seem unrealistic at first may not be later!
