

# Venus Retrograde in Gemini

**STARTS: MAY 13TH 2020 AT 2:45AM ET/MAY 12TH 2020 AT 11:45PM PT**  
**ENDS: JUNE 25TH 2020 AT 2:48AM ET/JUNE 24TH 2020 AT 11:48PM PT**  
**SHADOW: APRIL 9TH - JULY 29TH 2020**

The retrograde occurs entirely in Gemini. Bullet points:

- Focus on communication and expression in relationships - which are already good, which you don't care if they fall apart or not, and which you do care and need to work on right away
- Come up with some new focuses for learning, or taking up reading or writing
- Find balance between being busy enough but not too busy
- Connect with your immediate environment in healthy, positive ways

You're hit hardest if:

- You're a Taurus or Libra Sun, Moon, or Rising (naturally ruled by Venus, so you naturally feel off in a subtle way throughout the retrograde; this will be stronger for Libras this go around)
- You're a Gemini Sun, Moon, or Rising (since this retrograde is in Gemini, it's targeting you directly and everything gets wonky)
- The retrograde makes a lot (3 or more) of hard aspects to your natal chart (conjunctions, squares, and oppositions; the hard aspects bring hard energy for you to deal with)

You're exempt if you were born while Venus was retrograde. If that's the case, this is your time to thrive!

## TURN RETROGRADE: 21 DEGREES 50 MINUTES GEMINI

major aspects are 18 - 24 degrees of:

**Conjunction: Gemini** (super strong impact, extra high emphasis on whatever is being conjuncted)

**Sextile: Aries & Leo** (positive aspect, so this gives some beneficial energy for redos, revisions, and revisiting with whatever is being sextiled)

**Square: Virgo & Pisces** (hard aspect, so this can bring challenging energy and extra communication issues with whatever is being squared)

**Trine: Libra & Aquarius** (positive aspect, like a sextile this brings beneficial energy and is a bit easier)

**Opposition: Sagittarius** (hard aspect, like a square this can bring challenging energy but may be more out of your control)

## THE MOONS OF VENUS RETROGRADE:

**The Moon is in the signs Venus rules:**

How can you open up more and not give in to laziness (Taurus), and find balance and peace (Libra)?

**May 19th (10:11AM ET) - 22nd (9:36AM ET) - Taurus**

**May 31st (10:37AM ET) - June 2nd (12:06PM ET) - Libra**

**June 16th (5:36AM ET) - 18th (5PM ET) - Taurus**

### **Moon in Gemini:**

What can you give extra focus to and figure out your best approach with the Moon in Gemini?

**May 22nd (9:36AM ET) - 24th (7:09PM ET; includes the new moon on May 22nd, but not conjunct Venus)**

**June 18th (5PM ET) to 21st (2:01AM ET)**

There's extra focus on the retrograde itself while the Moon is in the sign the retrograde is in. The Moon exactly conjuncts Venus retrograde on May 23rd (19 deg 30 min Gemini) and June 19th (6 deg 1 min Gemini).
